

9.0 ASSESSMENT OF POTENTIAL HEALTH EFFECTS

The assessment of potential Proposed Project-related effects has been identified for each health VC. The effects assessment includes all phases of the Proposed Project lifecycle (including the construction, operational, reclamation and closure phases of the Proposed Project) within the identified spatial and temporal assessment boundaries. The health VCs listed in Section 4.2 will be assessed under the following disciplines:

- Human Health; and
- Noise.

The technical discipline specific methodology and assessment criteria to assess each potential effect are outlined in the following sections of this document.
